Molecular and Biochemical Parasitology 71 (1995) 295–296

MOLECULAR AND BIOCHEMICAL PARASITOLOGY

Contents of Volume 71

Number 1, April 1995

Research Papers

Kinetoplastid membrane protein-11 (KMP-11) is differentially expressed during the life cycle of African trypanosomes and is found in a wide variety of kinetoplastid parasites
C.E. Stebeck, R.P. Beecroft, B.N. Singh, A. Jardim, R.W. Olafson, C. Tuckey, K.D. Prenevost and T.W. Pearson (Canada, USA) 1

Characterization and detection of plant trypanosomatids by sequence analysis of the small subunit ribosomal RNA gene
S. Marché, C. Roth, H. Philippe, M. Dollet and T. Baltz (France) 15

Essential components of the mini-exon gene promoter in the trypanosomatid *Leptomonas seymouri*
D. Hartree and V. Bellofatto (USA) 27

The gp15/400 polyprotein antigen of *Brugia malayi* binds fatty acids and retinoids
M.W. Kennedy, J.E. Allen, A.S. Wright, A.B. McCruden and A. Cooper (UK) 41

Isolation and characterization of the gene encoding the surface membrane 3′-nucleotidase/nuclease of *Leishmania donovani*
A. Debrabant, M. Gottlieb and D.M. Dwyer (USA) 51

Characterization of two nuclear-encoded protein components of mitochondrial ribonucleoprotein complexes from *Leishmania tarentolae*
F. Bringaud, M. Peris, K.H. Zen and L. Simpson (USA) 65

Cloning of a *Schistosoma japonicum* gene encoding an antigen with homology to calreticulin
M.C. Huggins, J. Gibbs and N.A. Moloney (UK) 81

Organization and expression of the gene encoding an immunodominant repetitive antigen associated to the cytoskeleton of *Trypanosoma cruzi*
P.C. Cotrim, G. Paranhos-Baccala, M.R. Santos, C. Mortensen, M.I. Cano, M. Jolivet, M.E. Camargo, R.A. Mortara and J. Franco Da Silveira (Brazil, France) 89

Natural selection on *Plasmodium* surface proteins
M.K. Hughes and A.L. Hughes (USA) 99

A mutation-specific PCR system to detect sequence variation in the dihydropteroate synthetase gene of *Plasmodium falciparum*
P. Wang, D.R. Brooks, P.F.G. Sims and J.E. Hyde (UK) 115

Nicotinic acetylcholine receptors on the surface of the blood fluke *Schistosoma*
M. Camacho, S. Alsford, A. Jones and A. Agnew (UK) 127

Short Communications

A new polymorphic marker for PCR typing of *Plasmodium vivax* parasites
V.A. Snewin, E. Khouri, J. Wattavidanage, L. Perera, S. Premawansa, K.N. Mendis and P.H. David (France, Sri Lanka) 135

Phylogenetic analysis of *Gyrodactylus salaris* Malmberg, 1957 based on the small subunit (18S) ribosomal RNA gene
C.O. Cunningham, D.M. McGillivray and K. MacKenzie (UK) 139

Molecular cloning and characterization of a *Cryptosporidium parvum* elongation factor-2 gene
D.E. Jones, T.D. Tu, S. Mathur, R.W. Sweeney and D.P. Clark (USA) 143

Cloning and expression of cDNA encoding an antigenic . *Cryptosporidium parvum* protein
M.C. Jenkins and R. Fayer (USA) 149

Instructions to Authors

Number 2, May 1995

Research Papers

Location in the source chromosome of the 180-kb minichromosome of *Leishmania major* and characterization of the novel junction
G. Ortiz, M. Navarro and M. Segovia (Spain) 153
Characterization and localization of cathepsin B proteinases expressed by adult *Ancylostoma caninum* hookworms
S.A. Harrop, N. Sawangjaroen, P. Prociv and P.J. Brindley (Australia) 163
Female-specific sequences isolated from *Schistosoma mansoni* by representational difference analysis
A.C. Drew and P.J. Brindley (Australia) 173
Identification of *Eimeria bovis* merozoite cDNAs using differential mRNA display
M.S. Abrahamsen, R.R. Johnson, M. Hathaway and M.W. White (USA) 183
Kinetics and molecular characteristics of arginine transport by *Leishmania donovani* promastigotes
M. Kandpal, R.B. Fouce, A. Pal, P.Y. Guru and B.L. Tekwani (India) 193
Predicted disulfide-bonded structures for three uniquely related proteins of *Plasmodium falciparum*, Pfs230, Pfs48/45 and Pf12
R. Carter, A. Coulson, S. Bhatti, B.J. Taylor and J.F. Elliott (UK, Canada T6G 2S2) 203
Differential susceptibility of filarial and human erythrocyte glutathione reductase to inhibition by the trivalent organic arsenical melarsen oxide
S. Müller, R.D. Walter and A.H. Fairlamb (UK, Germany) 211
Cloning of the gene for phosphoglycerate kinase from *Schistosoma mansoni* and characterization of its gene product
K.W. Lee, K.A. Shalaby, A. Thakur, A.M. Medhat, A.M. Karim and P.T. LoVerde (USA, Egypt) 221
Comparison of introns in a cdc2-homologous gene within a number of *Plasmodium* species
R. Vinkenoog, B. Veldhuisen, M. Aparecida Sperança, H.A. Del Portillo, C. Janse and A.P. Waters (Netherlands, Brasil) 233

Short Communications

Sequence and organization of an unusual histone H4 gene in the human parasite *Entamoeba histolytica*
M. Binder, S. Ortner, B. Plaimauer, M. Födinger, G. Wiedermann, O. Scheiner and M. Duchêne (Austria) 243
A *Plasmodium falciparum* gene encoding a high mobility group protein box
J.F.J. Kun and R.F. Anders (Australia) 249
Genus- and subgenus-specific oligonucleotide probes for *Acanthamoeba*
R.J. Gast and T.J. Byers (USA) 255
Cloning and characterization of the ribosomal *l11* gene from *Leishmania* spp.
D.C. Love, M.E. Wilson and D.M. Mosser (USA) 261
Stable episomal transfection of *Entamoeba histolytica*
R.R. Vines, J.E. Purdy, B.D. Ragland, J. Samuelson, B.J. Mann and W.A. Petri Jr. (USA) 265
The female-specific W1 sequence of the Puerto Rican strain of *Schistosoma mansoni* occurs in both genders of a Liberian strain
C.G. Grevelding (Germany) 269
Molecular karyotype of clone CL Brener chosen for the *Trypanosoma cruzi* Genome Project
M.I. Cano, A. Gruber, M. Vazquez, A. Cortés, M.J. Levin, A. González, W. Degrave, E. Rondinelli, B. Zingales, J.L. Ramirez, C. Alonso, J.M. Requena and J. Franco da Silveira (Brazil, Argentina, Spain, Venezuela) 273
Primary structure of a putative adenylate kinase gene of *Giardia lamblia*
C. Rozario and M. Müller (USA) 279
Stage-specifically expressed genes of *Angiostrongylus cantonensis*: identification by differential display
G.W.P. Joshua and C.Y. Hsieh (Taiwan) 285
Sequence variations in the non-repetitive regions of the liver stage-specific antigen-1 (LSA-1) of *Plasmodium falciparum* from field isolates
C. Yang, Y.-P. Shi, V. Udhayakumar, M.P. Alpers, M.M. Povoa, W.A. Hawley, W.E. Collins and A.A. Lal (USA, Papua New Guinea, Brazil) 291
